

# The DX Bulletin

ISSUE 142 MAY 24, 1982

PROPAGATION: May 24-26, Low Normal; May 27, Low/Below Normal; May 28, 29, Low Normal; May 30, Disturbed; May 31, Low Normal; Jun 1, Low Normal; Jun 2-4, High Normal; Jun 5, High/Low Normal; Jun 6-8, High Normal. TNX N4XX.

AN OPERATION FROM CANADA'S ST PAUL ISLAND is "99 percent sure" for July, with a team of seven American and Canadian operators. They await final Coast Guard landing permission, which is expected soon. The main thrust of the operation will be for the IARU Radiosport Competition, with operation a few days on either side of that weekend.

MORE ON RECENT BURMA ACTIVITY indicates that DF8MP/XZ might have been in the Karen State area, although Rangoon still seems more likely. XZ5KNU/9 has been described as an American missionary based in Thailand, visiting in the Karen State. His QSLing address was Box 4-25, Bangkok.

VK9ZR MELLISH REEF ended up with about 16,000 contacts. The following VK9ZR WILLIS operation lasted about three days. QSL both these to VK2BJL, and it might help to put VK9ZR/Willis and VK9ZR/Mellish to differentiate between the two.

DL1VU departs ZK2VU now and plans to open from Rarotonga, N.Cooks, as ZK1XG, about May 25. After that he will sign the same call from the South Cooks, starting Jun 3.

D68AAB was by G4LJF, probably leaving on May 25. QSL to D4DYO.

DJ6SI/5V should have ended by now and next stop Baldur planned was Niger for an undetermined time.

TWO UPCOMING CONTEST OPERATIONS BY BOB Mitchell, N5RM, include Bahamas /C6A in the CQ WPX CW the end of this month, followed by N5RM/NHØ Saipan during the IARU Radiosport activity in July. CW only.

Mike McGirr, K9AJ, said to be heading to Nepal and 9N1MM, also for the CQ CW WPX.

RON, ZL1AMO, said to be contemplating another run from Pitcairn as VR6HI in the near future. Still no word coming from him or anyone else on any Kermadec work.

Abu Ail last month by J28AZ and friends sometimes signed J2Ø/Z and sometimes just J2ØZ. They made over 14,000 contacts in four days. QSL to F6ATQ, Joseph Cassaro, 322 rue Nationale de St Antoine, 13015 Marseille, France.

1984 CAME EARLY TO THE CHICAGO SUBURB OF BURBANK Illinois, and George Orwell would have been proud of the city fathers there, according to both the W5YI Report and the Westlink Report. Their new antenna ordinance, effective April 1 (!) suspended issuance of antenna permits for one year, required existing antennas to be registered with the city, stipulated that all installations must conform to the city's code and be inspected annually, and, finally, they said it would be unlawful to interfere by radio transmitter with any electronic device.

Area Attorney Jim O'Connell, W9WU, is hoping to file a class action civil rights lawsuit in federal court, with assistance probably coming from both other Chicago area communities and the ARRL.

RICK LEVANDOWSKI, WBØBNR, is still looking for someone to accompany him to East Kiribati June 15-24. His T32 license is pending but probably in the bag, and transportation and accommodations are secure. If you're interested write him at 1424 8th Ave S, Grand Forks ND 58201.

ZD9YL, LORNA, is a friend of Andy, ZD9BV. She's on the air now.

The DX Bulletin (ISSN 0279-8077) is published weekly fifty times per year at the following rates: 48 contiguous states \$26 per year (\$32 per year optional first class mail); Canada, Mexico, Alaska, Hawaii, Puerto Rico, APO, and FPO boxes, \$32 per year; all others \$40 per year (airmail). The DX Bulletin is published at 306 Vernon Avenue, Vernon, CT 06066. Second-class postage paid at Vernon, CT. POSTMASTER: Send address changes to The DX Bulletin, 306 Vernon Avenue, Vernon, CT 06066.

A THREE DAY VISIT TO CHINA BEGAN APR 8 by ARRL officials Noel Eaton, VE3CJ, Dick Baldwin, W1RU, and also included Tom Wong, VE7BC. Baldwin and Eaton were there to assess the status of amateur radio in China for the IARU.

In charge of the visit on the Chinese end was Chinese Radio Sports Association Secretary General Cheng Ping. Also on hand were the President of CSRA, Mr. Zhou Hai Ying (a former amateur), and a number of CSRA officials. Present at one of the dinners was a Mr. Wang, associate editor of Wuxundrian, a Chinese radio experimenter magazine with a circulation of 1.6 million.

Baldwin and Eaton visited BY1PK, where Eaton was interviewed and photographed for the press. At no time was there an offer to let either of the visiting North Americans operate the station. Baldwin reports a "never ending series of questions about amateur radio in the USA, the QSL bureau, U.S. and other amateur radio regulations, the IARU...reciprocal operating, etc etc."

In Dick Baldwin's own words, "Amateur radio in China is a long, long way from amateur radio as we know it. China is still isolated from the rest of the world, by government design, and I would judge they intend to keep it that way. They're pretty fussy about what foreign literature is permitted to be seen by the Chinese people...DXCC, international friendship, traffic handling--these are ideas of which they have no thought yet. In fact, the operators at BY1PK are apparently not too keen on the pile-ups that take place when they appear on the air."

The Chinese are interested in "fox hunting," and they are sending an observer group to the Yugoslav championships, in July. Also, the Japanese have challenged the Chinese to a 2-Meter foxhunt this fall. They believe the event may very well come off, but have little hope of being allowed to operate (transmit) from China.

Baldwin added that "Because of the difficulty in obtaining a license by an individual Chinese, it does not seem likely that foreigners will be granted permission to operate. I believe (Baldwin said) that pressure by foreign amateurs to se-

cure such permission will be counter-productive. Nevertheless, and regrettably, I believe DX-minded and 'helpful' amateurs will continue to apply such pressure, as they have for the past couple of years."

The ARRL and IARU will continue to provide information and assistance to the Chinese whenever it is requested, and to encourage the participation of China in the IARU, China being the last major country to be a possible candidate for membership in IARU.

Meanwhile, apparently, BY1PK will continue to be an anomaly.

COMMENTS ON ARGENTINA'S HAMS BEING PUT OFF the air in Issue 140 brought a response from the South American desk. The Desk speculates that the LU stations were put off the air so the military could have use (if necessary) of the ham bands and the existing stations for those bands. Argentine amateur radio is quite strong, with 25,000 hams in a population of about 28 million, and many of the high-ranking military types are hams. As a matter of fact, the now sunk General Belgrano even had a club station aboard.

However...the silencing of amateurs has taken place even though no declaration of war has been made. Were such to happen in the U.S. (as in WW II), hams would immediately give up their "strategic frequency reserve" to the military. Indeed, this is exactly why the U.S. military has been a strong supporter of amateur radio at the World Administrative Radio Conferences.

It is interesting to speculate if England would put its hams off the air if Argentina were laying claim to, for example, the Isle of Man! But, actually, we'd rather not.

---''---

PRADHAN, A51PN, in a letter to a New York amateur, says he left the air in December, and it will be "impossible to ever get on the air again." He gave no reason why.

JT1AN will be appearing with W7PHO again soon, 21345 at 0100Z, with a new 4 element quad. CE0ZAD Juan Fernandez frequents that spot, too.

DEADLINE for submitting QSLs to DXCC for the next Honor Roll listing is June 30.

The DX Advisory Committee is presently voting on whether or not to delete three DXCC entities: S/A Neutral Zone (824), Serrana Bank, and Bajo Nuevo. These deletions are expected to breeze through the Committee and their recommendations will be acted upon by the Headquarters later this summer, but the deletions will have NO effect on the next Honor Roll tallies.

Any talk of making North Korea a separate DXCC country (from S. Korea) is just that: talk.
